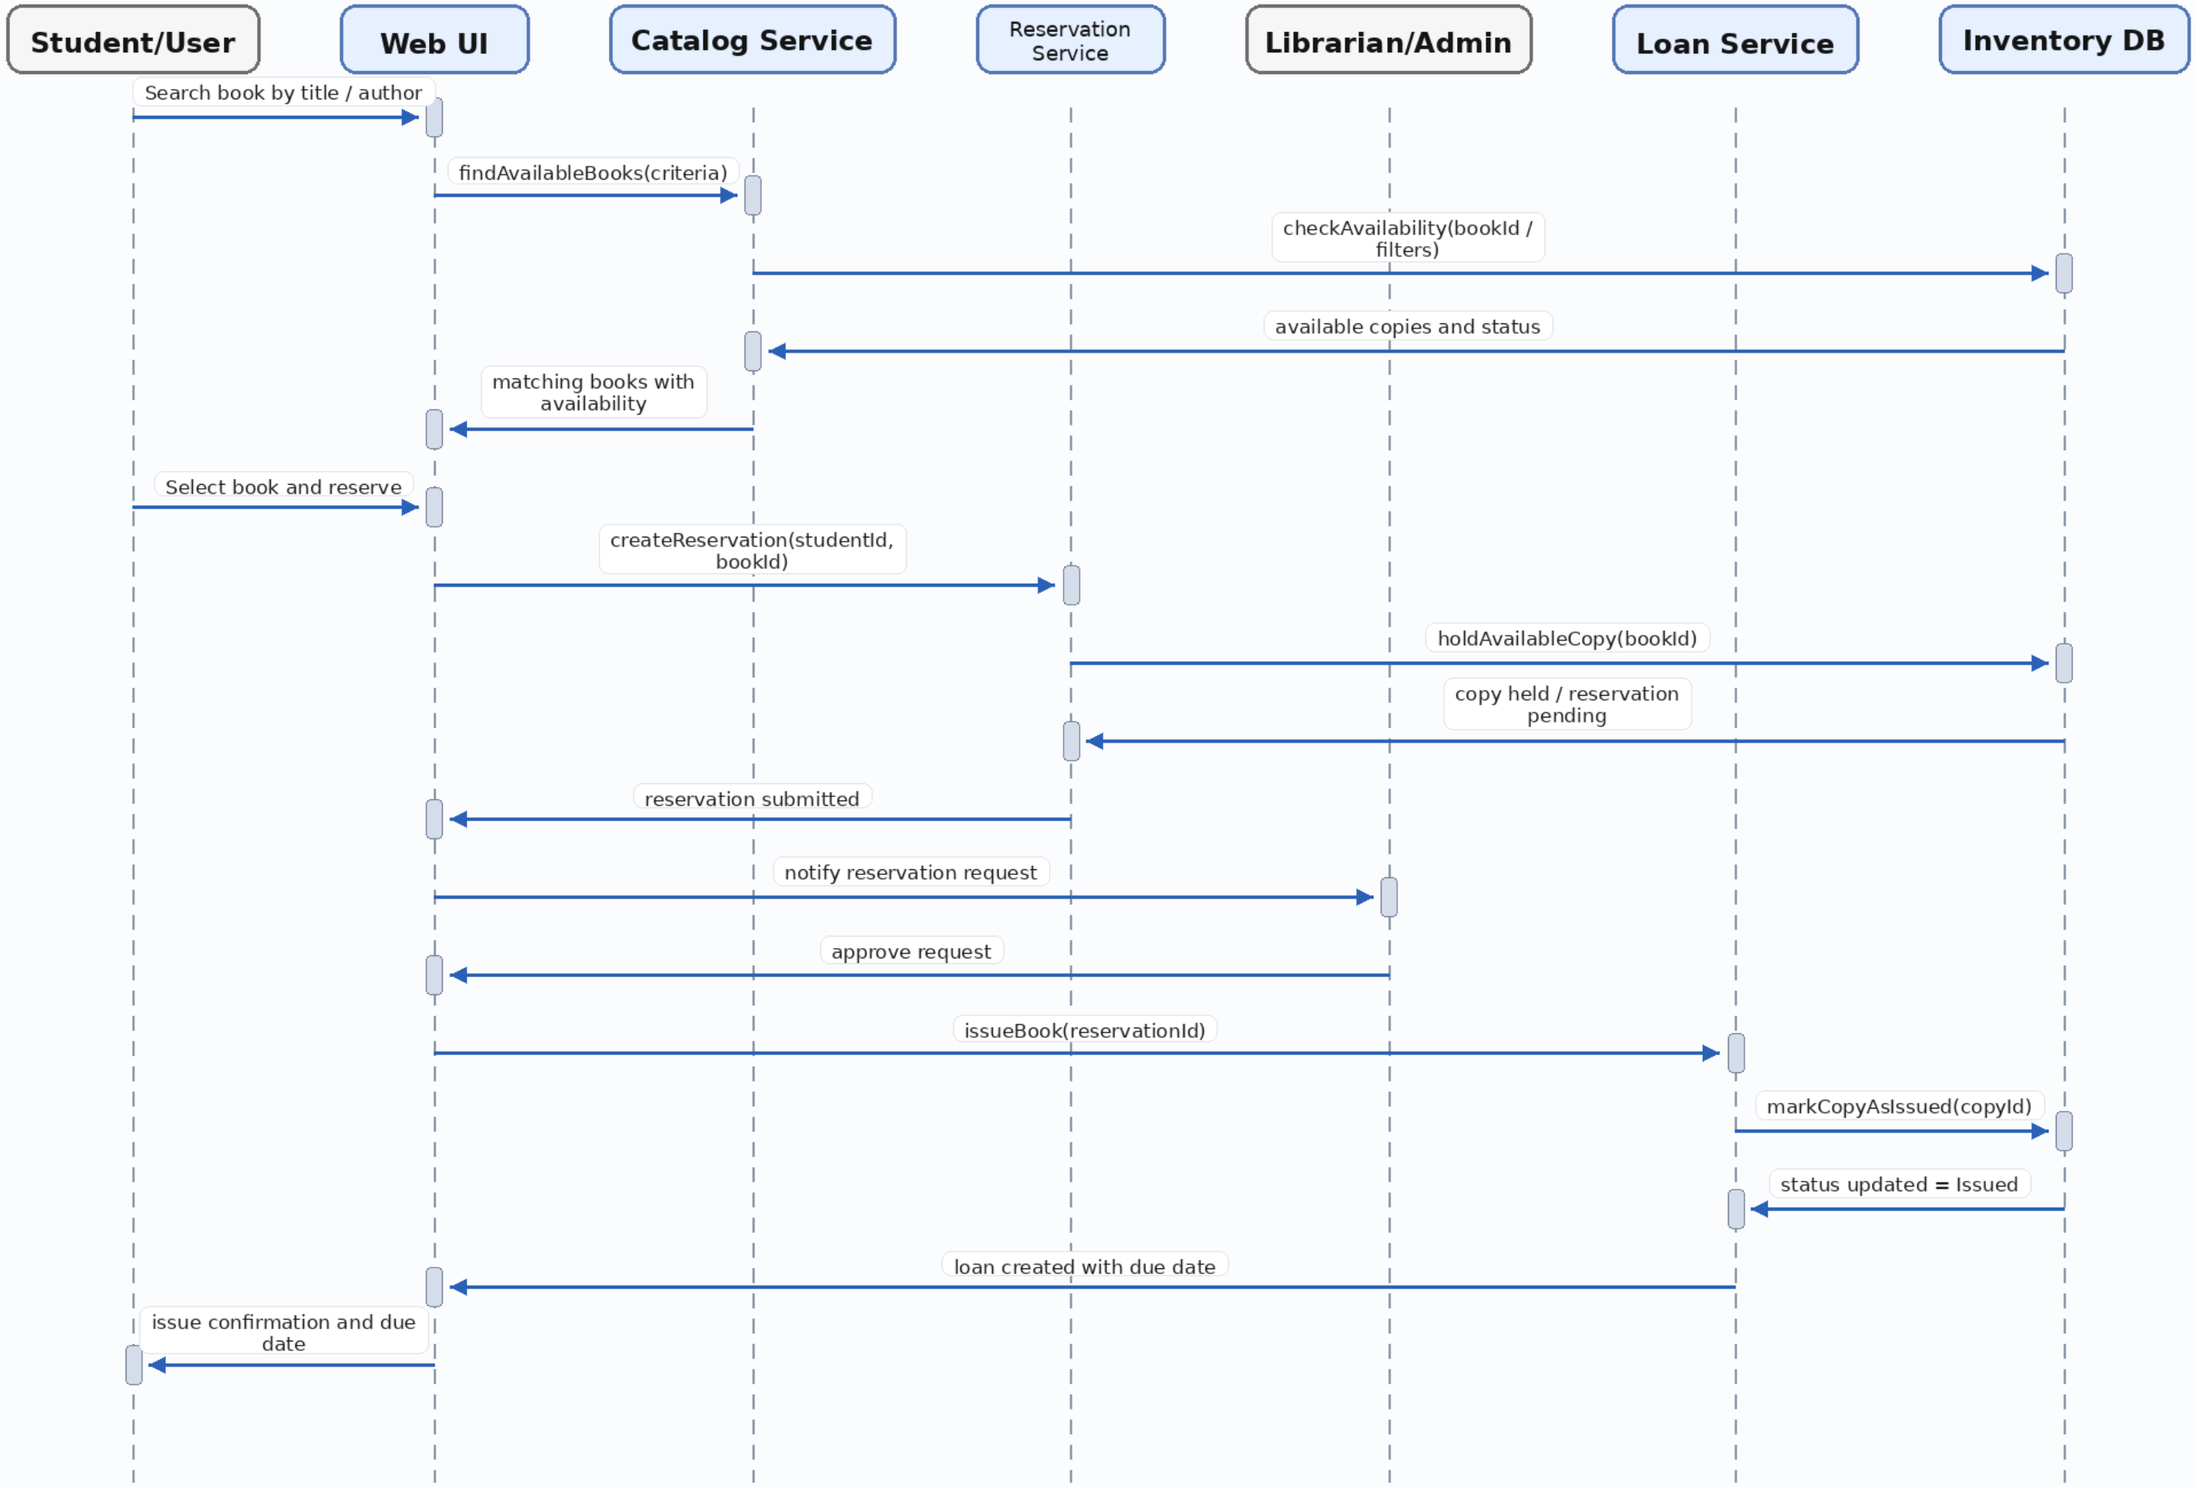
Sequence Diagram 1 - Book Reservation and Issue Flow

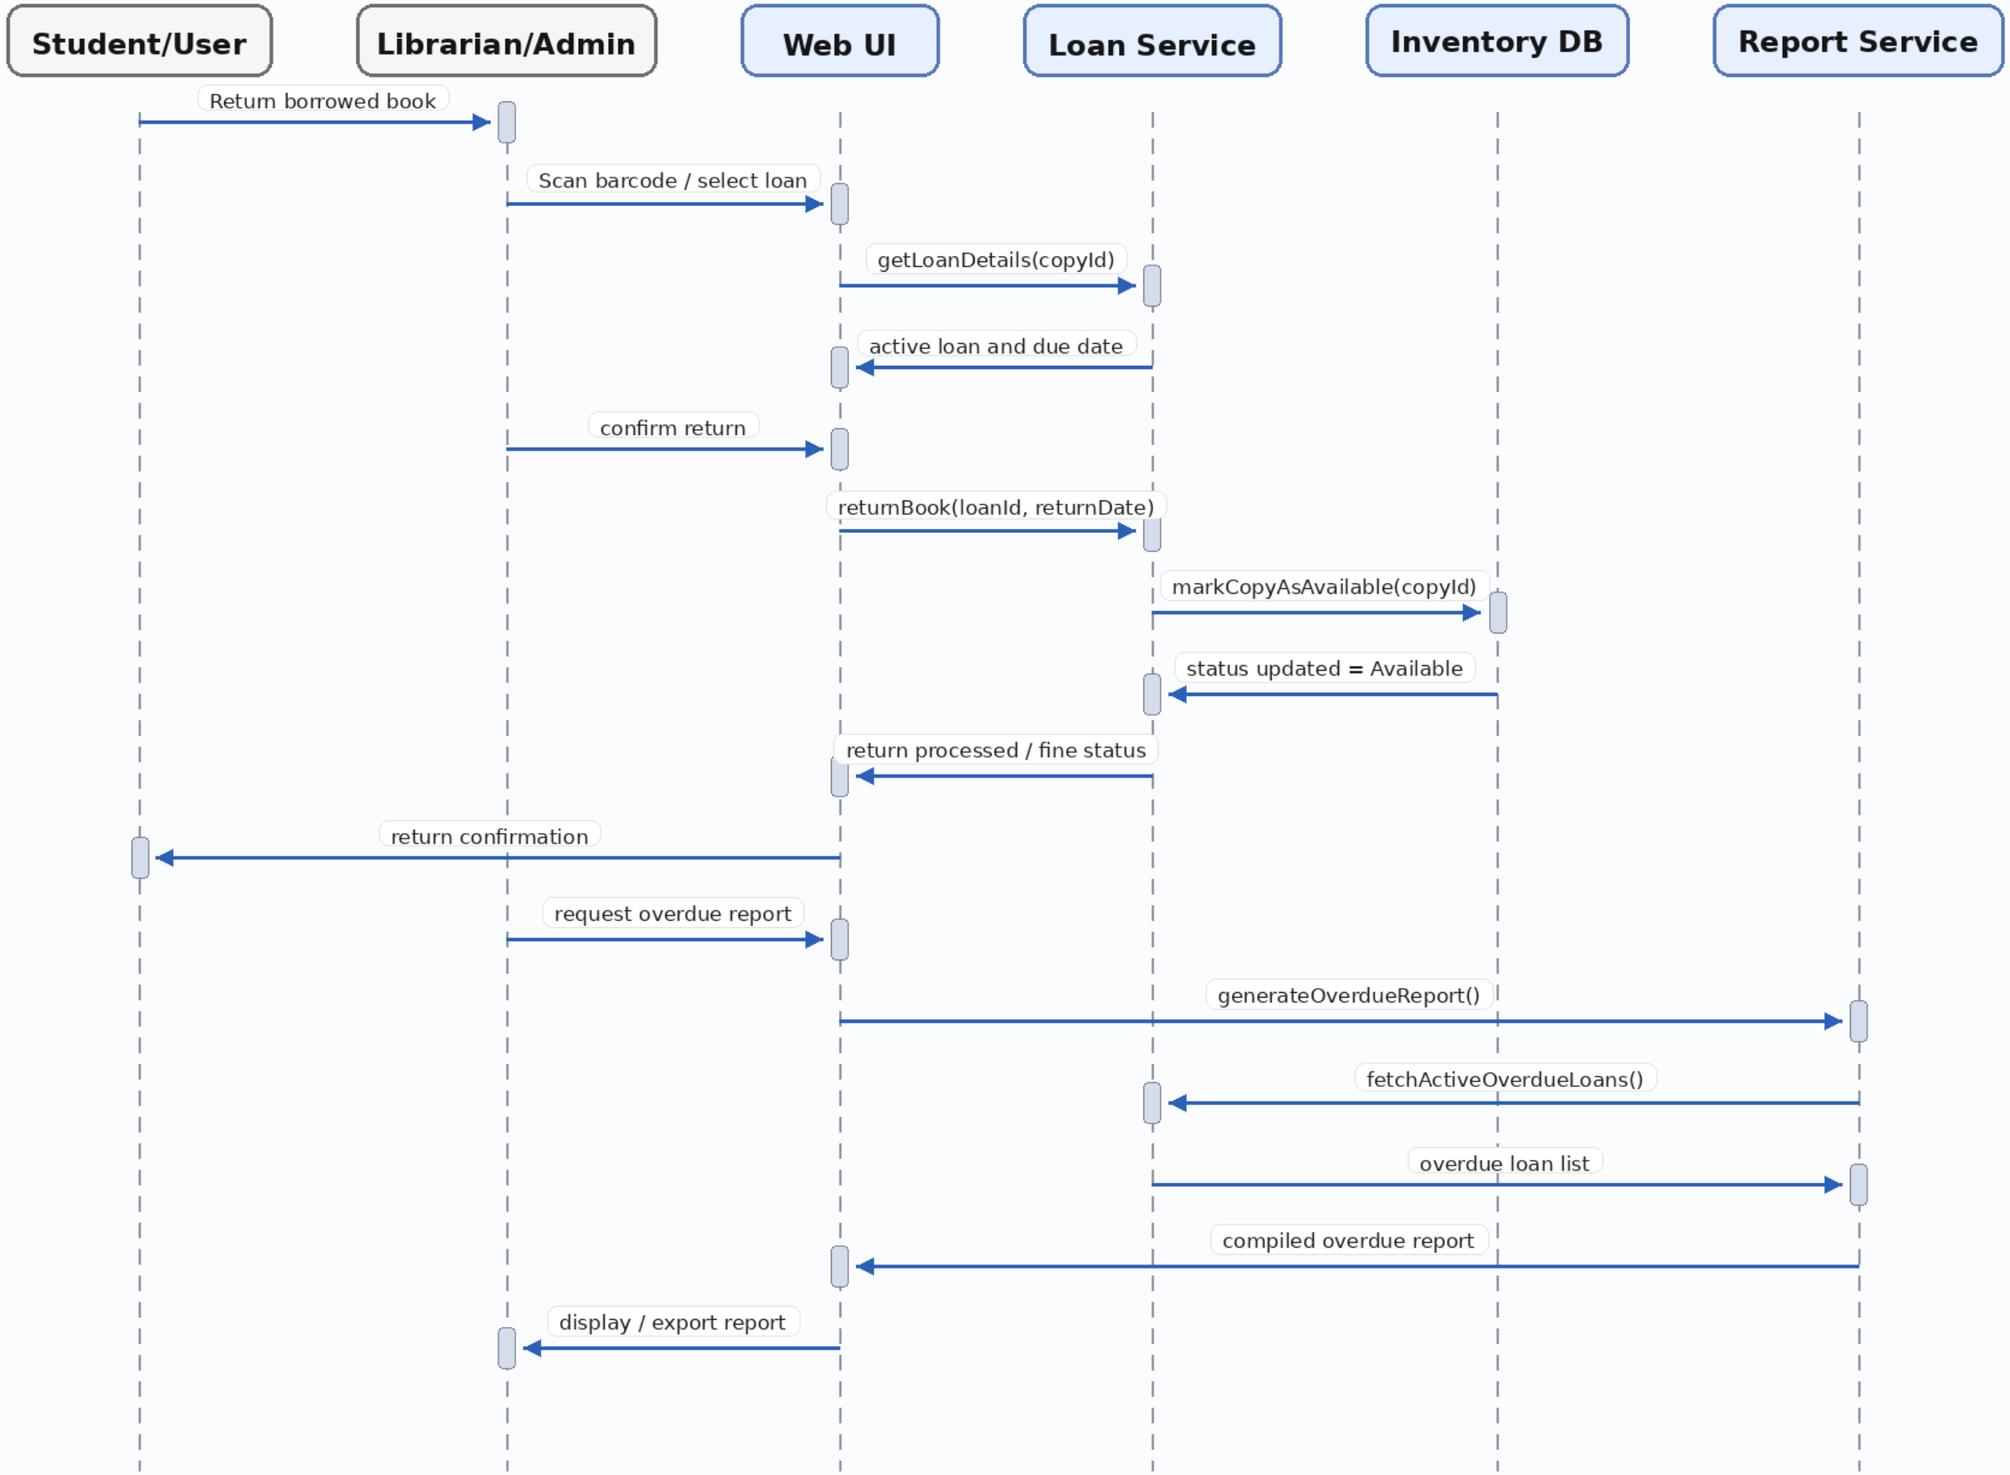
Student-side search and reservation, followed by librarian approval and loan creation.



Based on the uploaded PPT requirements: search books, check availability, reserve books, issue/return workflow, overdue tracking, report generation, admin panel, and barcode support.

Sequence Diagram 2 - Book Return, Overdue Check, and Report Flow

Barcode-assisted return processing and librarian-driven overdue report generation.



Based on the uploaded PPT requirements: search books, check availability, reserve books, issue/return workflow, overdue tracking, report generation, admin panel, and barcode support.
